

Afghanistan: Conflict Induced Displacements (as of 25 January 2026)

Actual displacements between 21 February 2025 and 12 October 2025

From 21 February 2025 to 12 October 2025, 7,467 individuals fled their homes due to conflict. A total of 2 out of 34 provinces had recorded some level of forced displacement. Constrained humanitarian access hinders assessments, thus preventing verification of the full extent of displacement and undermining the provision of assistance and services. Displacement affects all individuals differently with needs, vulnerabilities and protection risks evolving over time due to exhaustion of coping mechanisms and only basic emergency assistance provided following initial displacement. Inadequate shelter, food insecurity, insufficient access to sanitation and health facilities, as well as a lack of protection, often result in precarious living conditions that jeopardises the well-being and dignity of affected families.

Time period

1 January 2025 to 12 October 2025

Key figures

Percentage of IDPs displaced to hard to reach areas

Locations with displacements

2 out of 34 provinces
3 out of 401 districts

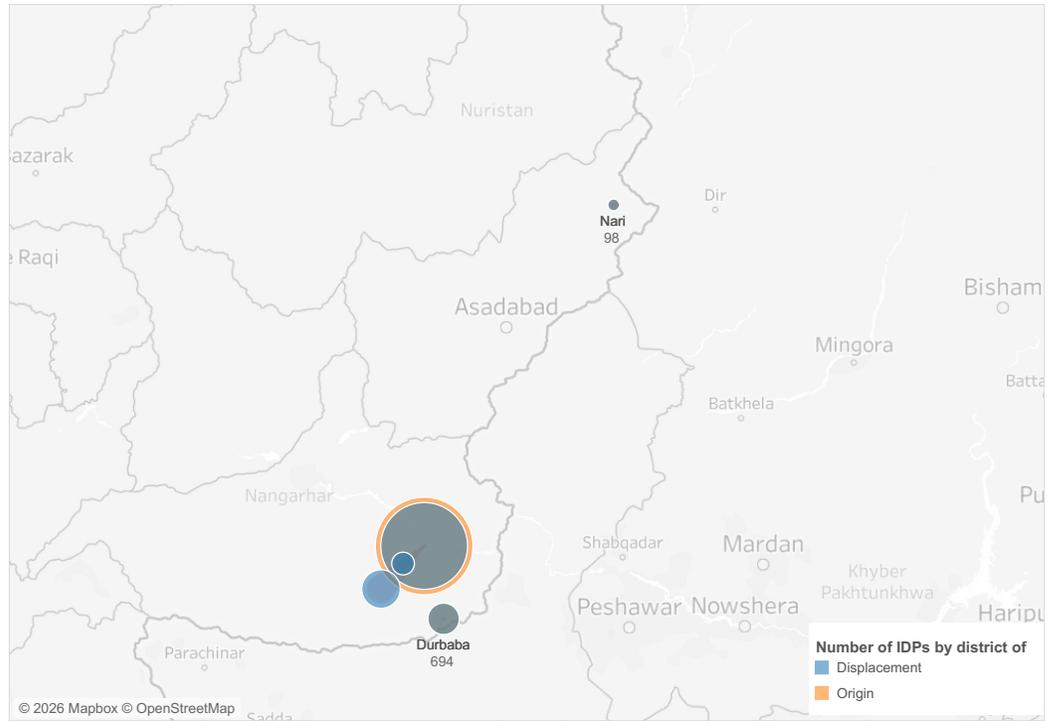

Locations hosting IDPs

2 out of 34 provinces
5 out of 401 districts
